Airtel Money (RDC) S.A. Democratic Republic of Congo	94.85	94.85

## **2. General accounting principles for the preparation of the annual accounts**

### **2.1 Basis of preparation**

The financial statements are drawn up in accordance with the provisions of Title 9, Book 2, of Dutch Civil Code and the Dutch Accounting Standard applicable to small legal entities, as published by the Dutch Accounting Standard Board ('Raad voor de Jaarverslaggeving'). The annual report and financial statements have been prepared on the historical cost basis and based on the principal accounting policies set out below. They are presented in US Dollar. These financial statements will be submitted for consideration and approval at the forthcoming annual meeting of shareholders of the Company.

### **2.2 Consolidation**

The Company avails itself of the facility of article 408, Book 2 of the Dutch Civil Code. The annual accounts of the Company and its subsidiaries are consolidated into the annual accounts of Airtel Africa plc, United Kingdom. A copy of the consolidated accounts of Airtel Africa plc will be filed together with these financial statements and will thereafter be available at the Trade Register of the Chamber of Commerce in Amsterdam.

### **2.3 Financial instruments**

Financial assets and financial liabilities are recognized on the Company's balance sheet when the Company becomes a party to the contractual provisions of the instrument. Financial instruments can be both primary financial instruments, such as receivables and payables, and financial derivatives.

The Company does not use derivatives.

## **2.4 Translation of foreign currency**

The financial statements are presented in US dollar, which is also the Company's functional and presentation currency, this based on the currency in which its main transactions are concluded.

Transactions in foreign currencies (other than functional currency of the Company) are initially recorded in the functional currency at the exchange rate prevailing at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the closing exchange rate prevailing as at the Balance Sheet date. Foreign exchange differences on subsequent re-statement/settlement are recognised in the Profit and Loss Account. Share capital, which is denominated in Euro, is translated at the exchange rate prevailing at the Balance Sheet date; foreign exchange differences are taken to the other reserves within shareholder's equity.

## **2.5 Impairment**

At each Balance Sheet date, the Company tests whether there are any indications of assets being subject to impairment. If any such indications exist, the recoverable amount of the asset is determined. If this proves to be impossible, the recoverable amount of the cash generating unit to which the asset belongs is identified. An asset is subject to impairment if its carrying amount exceeds its recoverable amount; the recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

## **2.6 Financial fixed assets**

Due to the international structure of the group and the use of the consolidation exemption of Article 408, Book 2 of the Netherlands Civil Code, participating interests in group companies are carried at cost less any impairment.

Receivables are valued at nominal value, unless disclosed differently. The receivables of group companies are included in financial fixed assets, except for maturities less than 12 months after balance sheet date which are included in the current assets. Any provisions for the risk of doubtful debts are deducted. These provisions are determined based on individual assessment of the receivables.

## **2.7 Current assets**

Receivables are valued at cost. Any provisions for the risk of doubtful debts are deducted. These provisions are determined based on individual assessment of the receivables.

## **2.8 Cash and cash equivalents**

Cash includes cash at bank.

## **2.9 Non-current liabilities**

Borrowings are valued at amortised cost. Payables to group companies are included in non-current liabilities, except for maturities less than 12 months after balance sheet date which are included in the current liabilities.

## **2.10 Current liabilities**

Liabilities are valued at nominal value, unless determined differently.

## **2.11 Other costs**

Other costs are recognized based on the historical cost convention and are allocated to the reporting year to which they relate.

## **2.12 Income**

Income mainly comprises of interest and dividend income for the current reporting period. Dividend income from investments in subsidiaries is recognized when the shareholders' rights to receive payment have been established (provided that it is probable that the economic benefits will flow to the Company and the amount of revenue can be measured reliably).

## **2.13 Taxes**

The Company forms a fiscal unity for each corporate income tax and VAT purposes with Airtel Mobile Commerce B.V. The Company is jointly and severally liable for the taxes payable by the fiscal unity.

## **3. Estimates**

In applying the principles and policies for drawing up the financial statements, the directors of the company make estimates and judgments that may be essential to the amounts disclosed in the financial statements. If it is necessary in order to provide the transparency required under article 362, sub 1, book 2 of the Dutch Civil Code the nature of these estimates and judgments, including related assumptions, is disclosed in the Notes to the relevant financial statement item.

## **4. Staff members**

During the Year 2024/2025 the Company had no employees, and hence incurred no wages, salaries or related social security charges (2023/2024: NIL).
