#### To The Partners of Airtel International LLP

#### **Report on the Audit of the Financial Statements**

#### **Opinion**

We have audited the accompanying financial statements of Airtel International LLP ("the LLP"), which comprise the Balance Sheet as at 31 March 2023, and the Statement of Profit and Loss, the Statement of Cash Flows for the year then ended 31 March 2023, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements of the LLP give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the LLP as at 31 March 2023, and its profit and its cash flows for the reporting period.

#### **Basis for Opinion**

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Financial Statements section of our report. We are independent of the LLP in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

#### Management's Responsibility for the Financial Statements

The LLP's management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance, cash flows of the LLP in accordance with the Accounting Standards as applicable to the LLP and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the LLP and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the LLP's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the LLP or to cease operations, or has no realistic alternative but to do so.

The management is also responsible for overseeing the LLP's financial reporting process.

#### Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the LLP's internal financial controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the LLP's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the LLP to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

## AIRTEL INTERNATIONAL LLP Notes to Financial Statements

(All amounts are in INR thousand, unless stated otherwise)

#### **Corporate Information**

Airtel International LLP (the 'LLP') is a limited liability partnership, incorporated under the Limited Liabilities Partnership Act 2008 on 27 March, 2019 and registered at Plot No. 5, Sector 34, Gurugram, Haryana, 122001, India. The LLP is partnership between Airtel Africa plc and Bharti Airtel International (Netherlands) B.V. The LLP is engaged in the business to provide and facilitate support services, including manpower, management support services, administrative, information technology and other technical & advisory support services.

#### 1. Summary of significant accounting policies

#### 2.1 Basis of preparation

The financial statements of the LLP have been prepared in accordance with the generally accepted accounting principles in India (Indian GAAP) and comply in all material aspects with the Accounting Standards issued by The Institute of Chartered Accountants of India (ICAI).

All the amounts included in the financial statements are reported in INR, with all values rounded to the nearest thousands except when otherwise indicated. Further, amounts which are less than half a thousand are appearing as '0'.

#### 2.2 Current versus non-current classification

The entity presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is classified as current when it is expected to be realized or intended to be sold or consumed in normal operating cycle, held primarily for the purpose of trading, expected to be realised within 12 months after the reporting period, or cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

A liability is classified as current when it is expected to be settled in normal operating cycle, it is held primarily for the purpose of trading, it is due to be settled within 12 months after the reporting period, or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period.

#### 2.3 Basis of measurement

The financial statements have been prepared on the accrual and the historical cost convention except where the Indian GAAP requires a different accounting treatment.

#### 2.4 Going Concern

The financial statements have been prepared on the going concern basis which assumes that the LLP will continue in operational existence in the foreseeable future.

#### 2.5 Use of estimates

The preparation of the financial statements in conformity with Indian GAAP requires the management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known / materialise.

# AIRTEL INTERNATIONAL LLP Statement of Cash Flow for the period ended 31 March 2023

(All amounts are in INR thousand, unless stated otherwise)

#### 2.6 Foreign currency transactions

#### **Initial recognition:**

Transactions in the foreign currency are initially recorded at the exchange rate prevailing at the date of the transaction or at rates that closely approximate the rate at the date of transaction.

#### Subsequent recognition:

Monetary assets and liabilities denominated in the foreign currency are restated at the exchange rate prevailing as at reporting date. Non-monetary assets and liabilities are carried at historical cost.

#### **Exchange Differences**

Exchange gain and loss arising on the settlement or on restatement of monetary assets and liabilities, are recognised as income or expenses in the statement of profit and loss.

#### 2.7 Property, plant and equipment ('PPE')

An item is recognised as an asset, if and only if, it is probable that the future economic benefits associated with the item will flow to the LLP and its cost can be measured reliably. PPE are initially recognised at cost. The initial cost of PPE comprises its purchase price (including non-refundable duties and taxes but excluding any trade discounts and rebates), and any directly attributable cost of bringing the asset to its working condition and location for its intended use.

Subsequent to initial recognition, PPE are stated at cost less accumulated depreciation and any impairment losses. When significant parts of property, plant and equipment are required to be replaced in regular intervals, the LLP recognises such parts as separate component of assets. When an item of PPE is replaced, then its carrying amount is de-recognised from the balance sheet and cost of the new item of PPE is recognised.

The expenditures that are incurred after the item of PPE is ready for its intended use, such as repairs and maintenance, are normally charged to the statement of profit and loss in the period in which such costs are incurred. However, in situations where the said expenditure can be measured reliably and is probable that future economic benefits associated with it will flow to the LLP, it is included in the asset's carrying value or as a separate asset, as appropriate.

Depreciation on PPE is computed using the straight-line method over the estimated useful lives. The LLP has established the estimated range of useful lives of different categories of PPE as follows:

|                  | Years |
|------------------|-------|
| Computer         | 3     |
| Office Equipment | 2     |

The cost and the accumulated depreciation for PPE sold, scrapped, retired or otherwise disposed off are derecognised from the balance sheet and the resulting gains / losses are included in the statement of profit and loss within other expenses / other income.

## AIRTEL INTERNATIONAL LLP Notes to Financial Statements

(All amounts are in INR thousand, unless stated otherwise)

#### 2.8 Intangible Assets

Identifiable intangible assets are recognised when the Company controls the asset, it is probable that future economic benefits attributed to the asset will flow to the Company and the cost of the asset can be measured reliably.

Subsequent expenditure on intangible assets is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognised in profit or loss as incurred.

The Company has established the estimated useful lives of intangible assets of 3 years.

#### Internally-generated intangible assets – research and development expenditure

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

An internally-generated intangible asset arising from development (or from the development phase of an internal project) is recognised if, and only if, all of the following conditions have been demonstrated:

- The technical feasibility of completing the intangible asset so that it will be available for use or sale
- The intention to complete the intangible asset and use or sell it
- The ability to use or sell the intangible asset
- The intangible asset will generate probable future economic benefits
- The availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset
- The ability to measure reliably the expenditure attributable to the intangible asset during its development

The amount initially recognised for internally generated intangible assets is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally generated intangible asset can be recognised, development expenditure is recognised in profit or loss in the period in which it is incurred.

Subsequent to initial recognition, internally generated intangible assets are reported at cost less accumulated amortisation and accumulated impairment losses.

#### 2.9 Impairment of Property, plant and equipment and Intangible assets

The carrying amounts of assets are reviewed for impairment at each reporting date. An impairment loss is recognised for the amount by which the assets' carrying amount exceeds its recoverable amount. The recoverable amount is the higher of the assets' net selling price and value in use. To calculate value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market rates and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash generating unit to which the asset belongs. Net selling price is the best estimate of the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

#### 2.10 Provisions

Provisions are recognized when the LLP has a present obligation as a result of past event; it is more likely than not that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

#### **Notes to Financial Statements**

(All amounts are in INR thousand, unless stated otherwise)

#### **2.11 Taxes**

#### **Current tax**

The current tax is calculated on the basis of the tax rates, laws and regulations, which have been enacted or substantively enacted as at the reporting date. The payment made in excess / (shortfall) of the LLP's income tax obligation for the period are recognised in the balance sheet under income tax assets / under current liabilities as current tax liabilities.

#### **Deferred tax**

Deferred tax is recognized for all the timing differences, subject to the consideration of prudence in respect of deferred tax assets. Deferred tax assets are recognized and carried forward only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised.

#### 2.12 Cash and cash equivalents

Cash and cash equivalents for the purpose of cash flow statement comprise cash at bank, cash on hand and cheques on hand and other short term highly liquid investments with an original maturity of three months or less that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

#### 2.13 Revenue Recognition

#### (i) Support services

Support services include IT (Information Technology) services and other support services rendered to the customers. Revenue from support services are computed on the basis of agreed mark up on cost incurred by LLP in accordance with agreement entered and recognised at the time when services are rendered and the related cost are incurred.

#### (ii) Interest income

Income on account of interest is recognised on accrual basis.

## 2.14 Employee benefits

The LLP's employee benefits mainly include wages, salaries, bonuses, defined contribution plans, defined benefit plans, other long term benefits including compensated absences. The employee benefits are recognised in the year in which the associated services are rendered by the LLP's employees. Short term employee benefits are recognised in the statement of profit and loss at undiscounted amounts during the the period in which the services have been rendered. Details of long term employee benefits are provided below:

#### a) Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions to a statutory authority and will have no legal or constructive obligation to pay further amounts. The LLP contributions to defined contribution plans are recognised in statement of profit and loss as and when the services are rendered by employees. The LLP has no further obligations under these plans beyond its periodic contributions.

## AIRTEL INTERNATIONAL LLP Notes to Financial Statements

(All amounts are in INR thousand, unless stated otherwise)

#### b) Defined benefits plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. Under the defined benefit retirement plan, the LLP provides retirement obligation in the form of gratuity. Under the plan, a lump sum payment is made to eligible employees at retirement or termination of employment based on respective employee salary and years of experience with the LLP. The LLP records liability based on actuarial valuation computed under projected unit credit method.

#### C) Other long-term employee benefits

The employees of the LLP are entitled to compensated absences as well as other long-term benefits. Compensated absences benefit comprises of encashment and the availing of leave balances that were earned by the employees over the period of past employment.

The LLP provides for the liability (presented under provisions) towards the said benefits on the basis of actuarial valuation carried out at the reporting date, by an independent qualified actuary using the projected-unit-credit method. The related re-measurements are recognised in the statement of profit and loss in the period in which they arise.

#### 2.15 Segment reporting

The LLP operates in single line of business and mainly in one geographical segment. Therefore, segment information as per AS 17, "Segment Reporting" has not been disclosed.
