(All amounts are in US dollar, unless stated otherwise)

2.4 Translation of foreign currency

The financial statements are presented in US dollar, which is also the Company's functional and presentation currency, this based on the currency in which its main transactions are concluded.

Transactions in foreign currencies (other than functional currency of the Company) are initially recorded in the functional currency at the exchange rate prevailing at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the closing exchange rate prevailing as at the Balance Sheet date. Foreign exchange differences on subsequent re-statement/settlement are recognised in the Profit and Loss Account. Share capital, which is denominated in Euro, is translated at the exchange rate prevailing at the Balance Sheet date; foreign exchange differences are taken to the other reserves within shareholder's equity.

2.5 Impairment

At each Balance Sheet date, the Company tests whether there are any indications of assets being subject to impairment. If any such indications exist, the recoverable amount of the asset is determined. If this proves to be impossible, the recoverable amount of the cash generating unit to which the asset belongs is identified. An asset is subject to impairment if its carrying amount exceeds its recoverable amount; the recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

2.6 Financial fixed assets

Due to the international structure of the group and the use of the consolidation exemption of Article 408, Book 2 of the Netherlands Civil Code, participating interests in group companies are carried at cost less any impairment.

Receivables are valued at nominal value, unless disclosed differently. The receivables of group companies are included in financial fixed assets, except for maturities less than 12 months after balance sheet date which are included in the current assets. Any provisions for the risk of doubtful debts are deducted. These provisions are determined based on individual assessment of the receivables.

2.7 Current assets

Receivables are valued at cost. Any provisions for the risk of doubtful debts are deducted. These provisions are determined based on individual assessment of the receivables.

2.8 Cash and cash equivalents

Cash includes cash at bank.

2.10 Current liabilities

Liabilities are valued at nominal value, unless determined differently.

2.11 Other costs

Other costs are recognized based on the historical cost convention and are allocated to the reporting year to which they relate.
