CHANNEL SEA MANAGEMENT COMPANY (MAURITIUS) LIMITED COMMENTARY OF DIRECTORS

The directors present their commentary, together with the audited financial statements of Channel Sea Management Company (Mauritius) Limited (the 'Company') for the year ended 31 December, 2021.

PRINCIPAL ACTIVITY

The principal activity of the Company is investment holding.

RESULTS AND DIVIDENDS

The Company's loss for the year ended 31 December, 2021 is USD 7,433 (2020: Loss USD 14,650).

The directors do not recommend the payment of a dividend for the year under review (2020 - Nil).

STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT OF FINANCIAL STATEMENTS

Company law requires the directors to prepare financial statements for each financial year which present fairly the financial position, financial performance and cash flows of the Company. In preparing those financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether International Financial Reporting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;

During the year, it was decided that since the Company has ceased to carry on business and there is no other reason for the Company to continue in existence and hence the Company recommended its shareholders to apply for the removal of the Company from the Register of Companies.

As a result, the financial statements have been prepared on estimated realisable values of assets and payable values of liabilities and obligation given the Company is not operating as a going concern.

The directors confirm that they have complied with the above requirements in preparing the financial statements.

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements comply with the Mauritius Companies Act 2001. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

AUDITOR

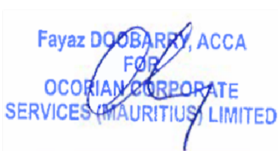

Deloitte has been appointed as auditor and has indicated its willingness to remain in office and will be automatically re-appointed at the Annual Meeting.

By Order of the Board

SECRETARY

OCORIAN CORPORATE SERVICES (MAURITIUS) LIMITED

**Independent auditor's report to the Shareholder of
Channel Sea Management Company (Mauritius) Limited**

Report on the audit of the financial statements

Opinion

We have audited the financial statements of **Channel Sea Management Company (Mauritius) Limited** (the "Company") set out on pages 7 to 24, which comprise the statement of financial position as at 31 December 2021, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company as at 31 December 2021, and of its financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs) and in compliance with the requirements of the Mauritius Companies Act 2001 in so far as applicable to Global Business License companies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standard Board for Accountants' *Code of Ethics for Professional Accountants (including International Independence Standards)* (the "IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter – Basis of Preparation

We draw attention to note 3 of the financial statements regarding the basis of preparation of the financial statements. As stated therein, the going concern basis of preparing the financial statements is no longer appropriate and the financial statements have been prepared based on the estimated realisable values of assets and payable values of liabilities and obligations. Our opinion is not modified in respect of this matter.

Other information

The directors are responsible for the other information. The other information comprises the Corporate Information, Commentary of the Directors and the Certificate from the Company's Secretary, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of directors for the financial statements

The directors are responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards and in compliance with the requirements of the Mauritius Companies Act 2001 in so far as applicable to Global Business License companies and they are also responsible for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

The directors are responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

**Independent auditor's report to the Shareholder of
Channel Sea Management Company (Mauritius) Limited (cont'd)**

Auditor's responsibilities for the audit of the financial statements (cont'd)

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on other legal and regulatory requirements

Mauritius Companies Act 2001

In accordance with the requirements of the Mauritius Companies Act 2001, we report as follows:

- we have no relationship with, or interest in, the Company other than in our capacity as auditor;
- we have obtained all information and explanations that we have required; and
- in our opinion, proper accounting records have been kept by the Company as far as appears from our examination of those records.

Use of this report

This report is made solely to the Company's shareholder, as a body, in accordance with section 205 of the Mauritius Companies Act 2001. Our audit work has been undertaken so that we might state to the Company's shareholder those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's shareholder as a body, for our audit work, for this report, or for the opinions we have formed.

CHANNEL SEA MANAGEMENT COMPANY (MAURITIUS) LIMITED

Notes to Financial Statements

(All amounts are in United States Dollars - 'USD')

1. Corporate information

Channel Sea Management Company (Mauritius) Limited (the "Company") is a private limited company incorporated in Mauritius, holds a Global Business License under the Financial Services Act 2007 and is regulated by Financial Services Commission. The Company's registered office is 6th Floor, Tower A, 1 Cyber City, Ebene, Republic of Mauritius.

The principal activity of the Company is investment holding.

2. Application of new and revised international financial reporting standards

2.1 New and revised Standards and Interpretations applied with no material effect on the financial statements

In the current year, the Company has applied new and revised standards and interpretations issued by International Accounting Standards Board ("IASB") and International Financial Reporting Interpretations Committee ("IFRC") of the IASB are relevant to its operations and effective for accounting periods beginning on 01 January, 2021.

IAS 39 Financial Instruments: Recognition and Measurement Amendments regarding replacement issues in the context of the IBOR reform (effective 1 January, 2021)

IFRS 7 Financial Instruments: Disclosures - Amendments regarding replacement issues in the context of the IBOR reform (effective 1 January, 2021)

IFRS 9 Financial Instruments - Amendments regarding replacement issues in the context of the IBOR reform (effective 1 January, 2021)

2.2 New and revised Standards in issue but not yet effective

At the date of authorisation of these financial statements, the following relevant Standards and Interpretations were in issue but effective on annual period on or after the respective dates as indicated:

IFRS 9 Financial Instruments - Amendments resulting from Annual Improvements to IFRS Standards 2018–2020 (fees in the '10 per cent' test for derecognition of financial liabilities) (effective 1 January, 2022)

IAS 1 Presentation of Financial Statements - Amendments regarding classification of liabilities (effective 1 January, 2023)

IAS 1 Presentation of Financial Statements - Amendment to defer the effective date of the January 2020 amendments (effective 1 January, 2023)

IAS 1 Presentation of Financial Statements - Amendment regarding the disclosure of accounting policies (effective 1 January, 2023)

IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors - Amendment regarding the definition of accounting estimates (effective 1 January, 2023)

IAS 37 Provisions, Contingent Liabilities and Contingent Assets - Amendments regarding the costs to include when assessing whether a contract is onerous (effective 1 January, 2022).

The directors anticipate that these amendments will be applied in the Company's financial statements for the annual periods beginning on the respective dates as indicated above. The directors have not yet assessed the potential impact of the application of these amendments.

CHANNEL SEA MANAGEMENT COMPANY (MAURITIUS) LIMITED

Notes to Financial Statements

(All amounts are in United States Dollars - 'USD')

3. Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. The policies have been consistently applied to both years presented, unless otherwise stated.

Basis of presentation

The financial statements have been prepared in accordance with and in compliance with International Financial Reporting Standards ("IFRS") and IFRIC interpretations. The financial statements have been prepared under the historical cost convention except that relevant financial assets and liabilities are stated at fair value, or carried at amortised cost as appropriate.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires the directors to exercise their judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are described in Note 4.

The Company has ceased to carry on business and as result the financial statements have been prepared on a liquidation basis. These financial statements will be submitted for consideration and approval to the shareholders of the Company.

On 24 June 2021, it was resolved by the Board of Directors that the Company has ceased to carry on business and there is no other reason for the Company to continue in existence and the Company recommend the Shareholders of the Company to apply for the removal of the Company from the Register of Companies. This resolution was further approved by the sole shareholder of the Company. The financial statements have thus been prepared on the estimated realisable values of assets and payable values of liabilities and obligations given that the Company is not operating as a going concern.

Foreign currency translation

(a) Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The financial statements are presented in United States dollars (USD), which is also the functional currency of the Company.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

Current and deferred income tax

The tax expense for the year comprises of current tax only. The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the reporting date in the country where the Company operates and generates taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is recognised in full, using the liability method, on all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the date of the statement of financial position and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets on accumulated tax losses are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

CHANNEL SEA MANAGEMENT COMPANY (MAURITIUS) LIMITED

Notes to Financial Statements

(All amounts are in United States Dollars - 'USD')

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

(This space has been intentionally left blank)

CHANNEL SEA MANAGEMENT COMPANY (MAURITIUS) LIMITED

Notes to Financial Statements

(All amounts are in United States Dollars - 'USD')

3. Summary of significant accounting policies (Continued)

Investment in associate

Associates are all entities over which the Company has significant influence but no control. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or jointly control over those policies.

Investments in associates are accounted for by the equity method of accounting. Under the equity method, investments in associates are carried out in the statement of financial position at cost as adjusted for post-acquisition changes in the share of net assets of the associate, less any impairment in the value of the individual investments. The goodwill is included within the carrying amount of the investment.

The Company's share of its associates' post-acquisition profits or losses is recognised in profit and loss and its share of post-acquisition movements in reserves is recognised in reserves. Where the company transacts with an associate, profits and losses are eliminated to the extent of the Company's interest in the relevant associate.

At each reporting date, the Company determines whether there is objective evidence that the investment is impaired. If there is such evidence, the Company calculates the amount of impairment as the difference between the recoverable amount of investment and its carrying value.

The Company derecognises investment in associates when it transfers substantially all the risks and rewards of ownership of the investment.

Financial instruments

The Company initially recognises financial instruments on the date that they are originated. All other financial assets are recognised initially on the trade date, which is the date that the Company becomes a party to the contractual provisions of the instrument. Financial instruments are initially recognised at fair value plus transaction costs and in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Financial assets and liabilities arising from different transactions are off-set against each other and the resultant net amount is presented in the statement of financial position, if and only when, the Company currently has a legally enforceable right to set-off the related recognised amounts and intends either to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

Subsequent measurement – financial assets

The subsequent measurement of financial assets depends on their classification as follows:

• Financial assets measured at amortised cost

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost using the effective interest rate (EIR) method (if the impact of discounting/any transaction costs is significant). Interest income from these financial assets is included in finance income.

EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability.

• Financial assets at fair value through profit or loss (FVTPL)

All equity instruments and financial assets that do not meet the criteria for amortised cost or fair value through other comprehensive income (FVTOCI) are measured at FVTPL. Interest (basis EIR method) and dividend income from financial assets at FVTPL is recognised in the profit and loss within finance income/finance costs separately from the other gains/losses arising from changes in the fair value.

CHANNEL SEA MANAGEMENT COMPANY (MAURITIUS) LIMITED

Notes to Financial Statements

(All amounts are in United States Dollars - 'USD')

3. Summary of significant accounting policies (Continued)

Financial instruments (Continued)

Subsequent measurement – financial liabilities

Financial liabilities are subsequently measured at amortised cost using the EIR method (if the impact of discounting/any transaction costs is significant).

Impairment of financial assets

In relation to the impairment of financial assets, IFRS 9 requires an expected credit loss model as opposed to an incurred credit loss model under IAS 39. The expected credit loss model requires the Company to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition of the financial assets. In other words, it is no longer necessary for a credit event to have occurred before credit losses are recognised.

Specifically, IFRS 9 requires the Company to recognize a loss allowance for expected credit losses on:

- (1) Debt investments measured subsequently at amortised cost or at FVTOCI; and
- (2) Trade receivables

In particular, IFRS 9 requires the Company to measure the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses (ECL) if the credit risk on that financial instrument has increased significantly since initial recognition, or if the financial instrument is a purchased or originated credit impaired financial asset.

However, if the credit risk on a financial instrument has not increased significantly since initial recognition (except for a purchased or originated credit impaired financial asset), the Company is required to measure the loss allowance for that financial instrument at an amount equal to 12 months ECL. IFRS 9 also requires a simplified approach for measuring the loss allowance at an amount equal to lifetime ECL for trade receivables.

Derecognition of financial assets and liabilities

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Company is recognised as a separate asset or liability. The Company derecognises a financial liability when its contractual obligations are discharged, cancelled or expired.

Financial instruments carried on the statement of financial position include loan receivable, other receivables, cash and cash equivalents, borrowings and, other payables and accrued expenses. The particular recognition methods adopted are disclosed below:

Loan receivable

Loan receivable is recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

Other receivables

Other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

CHANNEL SEA MANAGEMENT COMPANY (MAURITIUS) LIMITED

Notes to Financial Statements

(All amounts are in United States Dollars - 'USD')

3. Summary of significant accounting policies (Continued)

Cash and cash equivalents

Cash and cash equivalents includes cash in hand, deposits held at call with financial institutions, other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. The Company's cash and cash equivalents comprise of cash at bank.

Other payables and accrued expenses

Other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

Stated capital

Stated capital is determined using the nominal values of shares that have been issued and classified as equity.

Impairment of non-financial assets

The carrying amount of assets is assessed at each reporting date to determine whether there are any indications of impairment. If any such indication exists, the Company estimates the recoverable amount of the asset being the higher of the asset's net selling price and its value in use, in order to determine the extent of the impairment loss (if any). An impairment loss is recognised for any excess of the asset's carrying amount over its recoverable amount and is taken directly to profit and loss.

Revenue recognition

Interest income is recognised using the effective interest method.

Dividend income is recognised when the right to receive the dividend is established.

Interest and dividend income are recognised gross of withholding taxes.

Expense recognition

Expenses are accounted for in profit and loss on accrual basis.

Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount can be made.

4. Critical accounting estimates and judgments

The preparation of financial statements in accordance with IFRS requires the directors and management to exercise judgement in the process of applying the accounting policies. It also requires the use of accounting estimates and assumptions that may affect the reported amounts and disclosures in the financial statements. The estimates and judgments are evaluated by the Company on an ongoing basis, and are based on historical experience and various other assumptions and factors (including expectations of future events), that the Company believes to be reasonable under the existing circumstances. These estimates and judgments are based on the facts and events, that existed as at the reporting date, or that occurred after that date but provide additional evidence about conditions existing as at the reporting date. The changes in estimates are recognised in the financial statements in the year in which they become known.

CHANNEL SEA MANAGEMENT COMPANY (MAURITIUS) LIMITED

Notes to Financial Statements

(All amounts are in United States Dollars - 'USD')

4. Critical accounting estimates and judgments (continued)

Determination of functional currency

The determination of the functional currency of the Company is critical since recording of transactions and exchange differences arising thereon are dependent on the functional currency selected. The directors have considered those factors therein and have determined that the functional currency of the Company is the USD.

5. Financial risk management objectives and policies

Financial risk factors

The Company's activities expose it to a variety of financial risks: market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk. This note presents information about the Company's exposure to each of the said risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. Further quantitative disclosures are included throughout these financial statements.

The board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's risk management policies are established to identify and analyse the risks faced by the Company to set appropriate measures and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and in the Company's activities.

The Company's exposure to the various types of risks associated to its activity and financial instruments is detailed below.

(a) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's income or the value of its holding of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

(i) Currency risk

Currency risk is the risk that the fair value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Company has no exposure to foreign exchange risk as it does not have any assets or liabilities which are denominated in foreign currencies.

(ii) Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair values of financial instruments. As at reporting date, the Company is not exposed to interest rate risk as it does not hold any interest bearing financial assets or financial liabilities.

(b) Credit risk

Credit risk is the risk that a counter party to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Company. The Company's exposure to credit risk is monitored by management on an ongoing basis. The Company limits its risk by carrying out transactions through companies within the group and by banking with reputable financial institutions.

Amounts due from related parties are assessed regarding credit risk at each reporting date. As the same are closely monitored and controlled by the same management, there is no provision matrix being followed on ageing basis. There have been no instances observed in the past where collection is assumed to be at risk for such related party receivable.

CHANNEL SEA MANAGEMENT COMPANY (MAURITIUS) LIMITED**Notes to Financial Statements***(All amounts are in United States Dollars - 'USD')***(c) Liquidity risk**

Liquidity risk is the risk that an entity will encounter financial difficulty in meeting obligations associated with financial liabilities. The Company's approach to managing liquidity risk is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The Company relies on its related companies for funding.

The table below summarises the maturity profile of the Company's financial liabilities at 31 December 2021 based on contractual undiscounted payments:

	On Demand	Within 1 year	More than 1 year	Total
31 December, 2021				
Other payables and accrued expenses	1,606	5,891	-	7,497
	<u>1,606</u>	<u>5,891</u>	<u>-</u>	<u>7,497</u>
	On Demand	Within 1 year	More than 1 year	Total
31 December, 2020				
Other payables and accrued expenses	1,533	7,706	-	9,239
	<u>1,533</u>	<u>7,706</u>	<u>-</u>	<u>9,239</u>

(d) Fair values

The carrying amounts of the other receivables, cash and cash equivalents and other payables and accrued expenses approximate their fair values.

(e) Capital risk management

The Company's objectives when managing capital are to raise sufficient funds for its investing activities and to safeguard the Company's ability to pay its debts as they fall due in order to continue as going concern and provide returns for the shareholder. Capital comprises equity and retained earnings. In order to maintain or adjust the capital structure, the Company may issue new shares or have recourse to its parent for funding, sell its investment or vary the amount of dividends or return capital to the shareholder.

(f) Financial instruments by category

Financial Assets	As of 31 December, 2021	As of 31 December, 2020
<i>Amortised cost:</i>		
Other Receivables	4,900	471,564
Cash & Cash Equivalents	57,920	427
	<u>62,820</u>	<u>471,991</u>
Financial Liabilities	As of 31 December, 2021	As of 31 December, 2020
<i>Amortised cost:</i>		
Other payables and accrued expenses	7,497	9,239
	<u>7,497</u>	<u>9,239</u>

CHANNEL SEA MANAGEMENT COMPANY (MAURITIUS) LIMITED

Notes to Financial Statements

(All amounts are in United States Dollars - 'USD')

6. Income tax

Upto December 2018, the Company is subject to income tax in Mauritius on its net income at 15%. However, the Company was entitled to a tax credit equivalent to the higher of the actual foreign tax suffered (Foreign Tax Credit) and 80% of the Mauritius tax on its foreign source income, thereby giving an effective tax rate of 3%. With effect from 1 January, 2019, the Foreign Tax Credit available to the Company has been abolished by Mauritius Finance (Miscellaneous Provisions) Act 2018 (Finance Act), with introduction of 80% partial exemption regime whereby an income tax exemption of 80% on the following categories of income is applicable, provided that the pre-defined substance requirements issued by the Financial Service Commission (FSC) are met:

- o Foreign-source dividend (not allowed as deduction in source country).
- o Interest income.
- o Profit attributable to a permanent establishment (PE) that a resident company has in a foreign country.

GBC1 license issued on or before 16 October, 2017 will remain governed under the existing provisions of the Financial Services Act 2007 until 30 June, 2021, after which it will be deemed to be a Global Business License (GBL).

The foregoing is based on current interpretation and practice and is subject to any future changes in the Mauritian tax laws. At 31 December, 2021, the Company had accumulated tax losses of **USD 90,552** (2020: USD 114,189).

The tax losses are available for set off against future taxable profit of the Company as follows:

	<u>As of</u> <u>31 December, 2021</u>	<u>As of</u> <u>31 December, 2020</u>
Upto the year ending		
31 December 2021	-	35,970
31 December 2022	28,532	28,532
31 December 2023	20,265	20,265
31 December 2024	14,772	14,772
31 December 2025	14,650	14,650
31 December 2026	12,333	-
	<u>90,552</u>	<u>114,189</u>

A reconciliation between the accounting loss and the tax charge is as follows:

	<u>As of</u> <u>31 December, 2021</u>	<u>As of</u> <u>31 December, 2020</u>
Loss before tax	(12,333)	(14,650)
Income tax @ 15%	(1,850)	(2,197)
Impact of:		
Unutilized tax loss	1,850	2,197
Income tax credit	<u>-</u>	<u>-</u>

Deferred tax asset amounting to USD 2,716 (2020: USD 3,425) has not been recognised in the financial statements as it is not probable that the Company will have sufficient taxable profit against which the unused tax losses could be utilized in the foreseeable future.

Outstanding balance	638	625

The boards of Societe Malgache de Telephone Cellulaire S.A. and Montana International have approved liquidation in addition to the liquidation declared by Channel Sea Management company Mauritius Limited ("company").

Therefore, in order to facilitate this liquidation, the company has entered into novation agreements in respect of its inter-company receivables and payables with these companies and with other group companies. The effect of these novations have been taken into account in the financial statements of the company as at 31st December 2021.

Before novation, the Company had the right to receive \$131,342 from Bharti Airtel Rwanda Holding Limited (BARHL) and \$87,652 from Celtel and liability to pay \$1,534 to BAA BV.

The Company received the right to receive \$182,537 from Montana and SMTC through novation agreement.

After the novation has taken place, the company has novated all the balances to Celtel (Mauritius) Holding Limited and the company has accounted the effect of these write back in Other Equity (SOCIE).

Summary of such transactions are as per under:

Name of Company	Receivable/ Payable	With	Novated to	Amount (in \$)
