

# AIRTEL INTERNATIONAL PRIVATE LEASED CIRCUIT (IPLC)

Making communication easier across the world

In today's era, businesses are spread across the world, and it has become necessary to connect with regional offices, quickly and securely, in order to gain the required business agility.

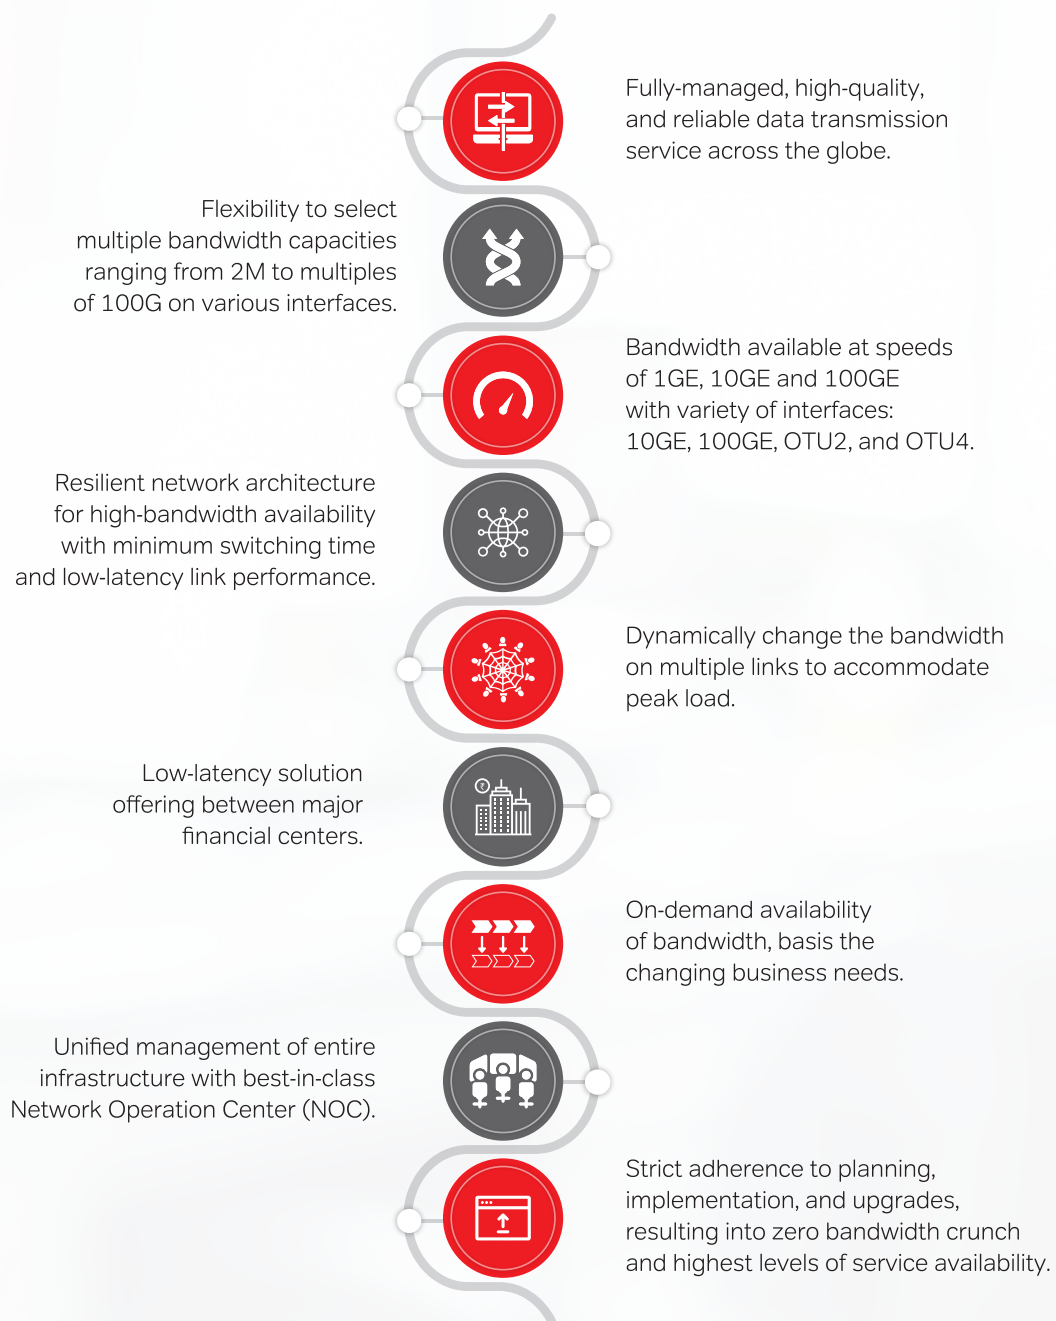

Airtel Business offers International Private Leased Circuit services for companies that are looking to scale their business operations, and in need of high bandwidth options - anywhere between 2M to 100G, for communication within offices which are geographically dispersed throughout the world.

With 65 global PoPs and 3,65,000+ RKM long, robust network infrastructure, we offer point-to-point private lines that help you expand and enjoy a direct link to offices even in the remotest areas.

## KEY FEATURES:

## AIRTEL ADVANTAGE:

Robust enterprise-grade connectivity with 65+ global PoPs and 3,65,000+ Route KMs cable.

Investments in 33 cable systems with full ownership in i2i and MENA.

One of the first few telcos to introduce on-demand bandwidth service for IPLC.

Partnerships with all major carriers across the global with NNIs at strategic PoPs.

Leading world-class bandwidth capacity and managed services at affordable rates.

State-of-the-art Network Operation Center and 24X7 support to ensure short fail-over time.
